Submit Your Project

In order to submit a Grant proposal, please fill in the form below.

- Read the Frequently Asked Questions
- Check the Eligibility Criteria
- See tips on How to Complete a Successful Grant Application
- Check out our webinars on capacity building - they may provide you with information that can support your application.
- Gather all the required information together before you start filling in the form. This form will take you approximately two hours to complete and will time out after three hours (your work will not be saved). You will also need to provide the following information :

  - Your proposed budget
  - A 12 month timetable of activities
  - Short biographies of all your team members

- If you have any questions about your Grant submission, please contact us at : fireprogram@afrinic.net.

All fields are mandatory unless otherwise noted.

Select grant

Please select which Grant you are applying for : *

○ **The Internet Society Africa Grant**

The Internet Society Africa Grant will provide **two** Grants of **US$ 25,000** each for two established projects that focus on Internet Security and/or Access Provision and have an implementation period of between 10-12 months.

○ **The FIRE Africa Grant**

The FIRE Africa Grants will provide four Grants of US $25,000 each to projects aligned with one or more of the four funding categories and have an implementation period of between 16- 20 months.

○ **The FIRE Africa Scale-Up Grant**

The FIRE Africa Scale-Up Grants will provide three Grants of up to US $30,000 each for three existing projects to scale up activities and move to the next level of their cycle.

Categories *

Please select which category your project falls into (you can select more than one category) :

☐ **Technical Innovation**

Innovative projects that use technical concepts and solutions related to Internet development, security and access. This category includes innovation in materials, devices, standards for software and content and delivery.

☐ **Community Development**

Innovative projects that use technical concepts to solve the unique problems faced by communities throughout Africa. Projects should have a specific focus on a particular group or sector of society.

☐ **Governance Enhancement**

Innovative projects that address governance issues including privacy, online freedoms, data retention and access.

☐ **Education**

Innovative projects that use ICT to solve specific educational issues throughout the region, including bringing access to education to isolated communities and marginalised groups in society, combatting educational professional shortages and innovation on information dissemination.

Additional Information

Project background and justification

Give a concise overview of the problem that your proposal addresses.If necessary, include references to local media or other publications describing the problem to be addressed.

[   ]

Motivation

What is the motivation behind this idea? Why are you and your team eager to work on this project? How is your organization supporting you and your team?

[   ]

Innovation

How and why is this project innovative? If you are aware of other projects that are trying to solve the same problem, how does your project differ?

Project Objectives*

List the main objectives of your Project

Project Beneficiaries

Identify the communities and/or segments of society that will directly benefit from your project.

Project methodology

Outline how the project objectives will be achieved. If applicable, provide information about how social aspects such as gender, ethnicity, traditional knowledge and local culture will be addressed by your proposed methodology.

Technologies to be used*

List which technologies (new or existing) will be the main focus of the project.

Project Outputs

State the outputs the project will produce, the forms in which they will be delivered and how they will be disseminated.

Project Monitoring

Specify the monitoring and/or evaluation processes to be used and the resources available in your organisation to support this task.

Project Sustainability

Specify how you plan to scale, sustain and continue the project if you propose to develop a system that will exist after the project funding has been granted and used.

Supporting Documents (optional fields)

Please include your proposed budget and a timeline of activities and implementation here to support your Grant application. Please also include anything else you think may be useful for the review team to assess your project.
